- 2) If planning a fundraising event, please call the Development Department for assistance; we can help make your event a success!
- 3) Please don't presume that just because you are holding a fundraising event, all monies raised are donations.
- 4) Additional information can be found by reviewing Salt Lake Education Foundation's Contribution Acceptance Policy or IRS Publication 526.
- 5) **This form is only to be used when funds are received through fundraising efforts**; all other funds should be handled through the Accounting Department.

The following questions will help you to determine what is or is not a donation. It is important to make this determination prior to accepting money, goods and/or services and/or holding a fundraising event. The Salt Lake Education Foundation is the only authorized 501(c)(3) non-profit organization of the Salt Lake City School District, and in that role is responsible to acknowledge, receipt and account for charitable donations intended to support specific programs, schools or departments. The proper handling of donated funds is an important responsibility. The Development Department is here to assist and guide district employees and community volunteers through that process.
