

COVID-19 Emergency Response

To help meet the enormous needs of our students and their families during the COVID-19 pandemic, the Salt Lake Education Foundation and Salt Lake City School District are working with community partners to provide emergency “grab and go” food bags and hygiene kits for families.

The foundation is committed to the health and safety of our students. Of particular concern at this time is protecting our students and their families against respiratory illnesses and ensuring that they have access to healthy food. We are working with our community to package food bags and emergency hygiene kits for families in need.

The Salt Lake Education Foundation has created an Emergency Relief Fund to support our community, including purchasing items needed in the hygiene kits. For the health and safety of our students we are purchasing all items from trusted vendors.

To help meet the needs of students and their families during the COVID-19 pandemic, simply select the “Emergency Relief Fund” from the drop down menu.
